

“Discovering Hope and Strength in the Middle of Chaos”

Ezekiel 37:1-14

Hopelessness and despair seem to radiate from every direction. Solutions are hard to find. Science has failed to provide protection from massive illnesses, political leaders have failed to bring harmony and have raised the risks surrounding us, higher education has failed to bring understanding and good jobs for many, and trillions of dollars have been spent and economies are still faltering. People continue to ignore God. The chaotic picture is bleak.

Don't let all the negative information rob you of hope and strength. Jesus is our HOPE! He brings order to chaos. He can take that which is dead and bring it to life. We can walk in His strength and radiate His hope.
